

Features you can
really put your
finger on

The VT500 and Dorio family keyboards are designed with advanced technology for high reliability, as well as for the most comfortable touch and feel possible. The keycaps are sculpted to fit the fingertip and some keys are further indented to provide "home-feel" positioning. The front casing of the keyboard is curved for comfortable hand positioning. The VT500 and Dorio family keyboards combine efficiency and comfort, allowing users to raise both productivity and profitability.

VT500 and Dorio family keyboards are available in three different styles and a number of international language layouts to satisfy your needs: VT108 ANSI, VT108 WPS and Enhanced PC. These keyboard styles are widely used, reducing or eliminating any training time required.

VT108 ANSI

Standard Digital VT-style ANSI keyboard with 108 keys.

VT108 WPS

"Gold Key" keyboard with 108 keys, including supplemental front-face legends. Ideal for use in VMS and Open VMS operating system environments running ALL-IN-1 or Word Processing System applications.

ENHANCED PC

PC-style high-quality keyboard, available with 101 keys (U.S./U.K. English) or 102 keys (international languages).

KEYBOARDS

VT500 AND DORIO FAMILY

Use the following chart as a quick reference for selecting the keyboard to suit your needs.
